Experience

Front End Developer

Mahmet Global Limited • Abuja, Nigeria

05/2026 - Present

- Developed and maintained the company's real estate platform using modern tools, delivering responsive and user-friendly interfaces.
- Collaborated with stakeholders to implement new features and enhance the overall user experience.
- Managed the platform's visual components and UI structure, ensuring design consistency and maintainable code.
- Optimized frontend performance and responsiveness across desktop and mobile devices.

Full Stack Developer

Independent • Abuja, Nigeria

10/2025 - Present

- Delivered custom web applications for clients using relevant tools like React and PostgreSQL.
- Refactored existing codebases to **improve maintainability, performance, and scalability**.
- Implemented responsive user interfaces and resolved cross-browser compatibility issues.
- Managed project delivery from requirements gathering through deployment and post-launch support.

Full Stack Developer

Velo • Abuja, Nigeria

02/2026 - Present

- Architected a minimalist blogging platform using React and Node.js technologies, delivering a responsive and maintainable user experience.
 - Engineered a custom passwordless authentication system using HTTP-only cookies, **simplifying user access** while improving authentication reliability.
 - Designed a **PostgreSQL** database schema with Supabase to support efficient data management and scalable application growth.
 - Managed end-to-end deployment, DNS configuration, and **SEO optimization**, ensuring reliable production releases and improved search visibility.
 - Collaborated on feature planning and implementation, translating product requirements into **scalable frontend and backend solutions**.
-

Education

Bachelor's Degree in Computer Engineering

Nile University of Nigeria • Abuja, Nigeria

09/2030
