Summary

Intermediate full-stack web developer specializing in React, Node.js, and Express. Experienced in designing scalable web architectures, managing databases with Supabase, and implementing custom backend security solutions. Passionate about delivering clean user interfaces and optimizing applications for deployment and SEO.

Education

Nile University of Nigeria

Bachelor's Degree in Computer Engineering • Abuja, Nigeria

09/2030

Skills

Communication skills, React, JavaScript, Node.js, Express, HTML5, Git, Database Management, CSS3, UX Design, SEO, Responsive Web Design

Experience

Velo

Full Stack Developer • Abuja, Nigeria

02/2026 - Present

- Architected a minimalist blogging platform using **React** and **Node**, focusing on clean UI/UX and performance.
- Engineered a custom passwordless authentication system using HTTP-only cookies and **Express** to prioritize data security.
- Designed a **PostgreSQL** database schema using Supabase, ensuring efficient data retrieval and updates.
- Managed end-to-end deployment, **DNS configuration**, and **SEO** optimization to increase discoverability.

Independent

Freelance Web Developer • Abuja, Nigeria

03/2026 - Present

- **Refactoring:** Diagnosed and resolved codebase issues, optimizing logic to improve application performance and stability.
- **UI/UX Troubleshooting:** Fixed responsive design errors and rendering inconsistencies for seamless cross-browser compatibility.
- **Quality Assurance:** Conducted systematic debugging of web applications, isolating component tree errors to enhance user experience.

Nile University of Nigeria

Engineering Undergrad • Abuja, Nigeria

10/2025 - Present

- Applied engineering principles to solve complex problems in **Thermodynamics**, **Fluid Mechanics**, and **Materials Science**.
- Delivered a technical presentation on Grain Technology and crystalline materials for an engineering audience.
- Developed **MATLAB** computational models to simulate physical mechanics, including freefall dynamics and aerodynamic drag.
